Sub : Prevention of Money Laundering and Terrorist Financing

Dear colleagues, we have passed a very unique year with the onslaught of global Pandemic of Corona Virus which has affected the world economy to a great extent. Due to uncertainties of Pandemic and country lockdowns and severe travel restrictions, the news of Money Laundering and Terrorist Financing in the media was not visible throughout the year. But in our country the news of the scams in some NBFIs has created a trust gap between depositors and financial institutions. We must be aware that this kind of upheaval in the financial sector would destabilize the market and the general public will find ways to roll their money elsewhere giving rise to money laundering activities.

Needless to mention, because it is now well known that 'Money Laundering' is a global menace and due to the rise of financial markets worldwide, Money Laundering by vested quarters have become easier than before. It has far reaching negative effects on the economy, politics, security and social consequences.

Banks and Financial Institutions have made it a mandatory part of its risk management strategies in order to comply with the Governments fight against Money Laundering and Combating Terrorist Financing and it's an ongoing process.

The guidelines on "Prevention of Money Laundering and Terrorist Financing of BLIL reflects the commitment of the Board and the Management to comply with the Money Laundering Prevention Act, 2002, Anti-Terrorism (Amendment) Act, 2013 and all Other Central Bank instructions and international regulations.

I would like to reinforce the fact Money Laundering is a menace for the world and remind you all once again that we must adhere to all laws and regulations designed to combat money laundering and terrorist financing. CAMLCO is to ensure the compliance status and monitor individual responsibilities and provide in-house awareness from time to time.

'Due Diligence' of clients and 'Record Keeping' should never be compromised and Suspicious Transaction Reports (STR) must be communicated to the top management and/or Bangladesh Bank for mitigating and minimizing risk for our institution.

I am advising you all again to thoroughly go through again the 'Guidelines on Prevention of "Money Laundering and Terrorist Financing"' in order to keep abreast with all procedures and compliances and implement the important and relevant aspects in your routine operational activities.

Iftakhar Ali Khan

Managing Director
